PROFILE

Data professional specialized in data analysis, modeling, and data value creation.
I work across the entire data lifecycle—from collection to visualization—to transform data into performance drivers and strategic decision making tools. Strong expertise in Power BI, SQL, Excel, and Python, with a focus on data quality, process optimization, and KPI driven performance management.

PROFESSIONAL EXPERIENCE

DATA ANALYST – MEDICAL LABORATORY

11 - 2024 / 06 – 2025

- Data cleaning and processing
- Analysis of medical results and patient data
- Automation of weekly reporting with Power BI
- Creation of dashboards and KPI visualizations
- Collaboration with biologists

Technical Environment : Power BI, Excel, Python, SQL, SharePoint, DBT

DATA ANALYST – COLAS

10 - 2022 / 10 – 2024

- Data analysis and processing
- Automation of reports using VBA and macros
- Development of Power BI dashboards with key indicators
- Executive presentations using PowerPoint
- Development of an application in Power BI
- Creation and maintenance of Snowflake schemas

Technical Environment : Power BI, Excel, VBA, SQL, Snowflake, DBT, Figma

FUNCTIONAL ANALYST – TECHNOPOLIS

06 - 2021 / 10 – 2021

- Requirements analysis and functional modeling
- User interface design
- Front-end application development
- Optimization of parking flow management

Technical Environment: UML, HTML5, CSS, Figma

WEB CONSULTANT – CABLAGES INDUSTRIEL

06 - 2020 / 10 – 2020

- Development of a cable management application
- Creation and management of a cable database
- Verification and monitoring of technical connections

Technical Environment: Microsoft Access, MySQL, UML

EDUCATION

MASTER'S DEGREE – BIG DATA & BUSINESS INTELLIGENCE, ESTIAM
2022 – 2024

BACHELOR – DATA & APPLICATION DEVELOPMENT, ESTIAM
2021 – 2022

BACHELOR'S DEGREE – SOFTWARE ENGINEERING, ESISA
2018 – 2021
